PLA (also known as Polylactic acid) is a compostable bioplastic made from plant based resources. Put simply: it's a plant based bioplastic that can be recycled through the industrial composting process. This makes it an ideal material to use when packaging is mixed with food waste.

Top 5 Reason to use PLA

1. PLA is made from renewable resources
2. PLA has a lower carbon footprint
3. PLA is a compostable alternative to many products
4. Less energy is required to create PLA. PLA requires 65% less energy compared to conventional plastics.
5. PLA aligns with the circular economy

The picture below will help you understand PLA better.

What is PLA?

Tips:

Temperature range: PLA products can withstand a temperature range of $-20^{\circ}C$ to $55^{\circ}C$. It can only be used for cold drinking.

Degradation conditions: Under industrial composting environment, PLA products can be completely degraded into water and carbon dioxide after 3-6 months.

Transportation & Store: Considering that the shipping time is long, especially in summer, the temperature inside the container will be very high. In general, we recommend that customers install a insulation film in the container or a insulation bag in the carton.

Store : PLA products can be stored at room temperature for many years .

PET, full name is Polyethylene Terephthalate, which extracts from oil. It is also regarded as the eco-friendly products because of its non-toxic and scentless. For PET .It is now recognized that the best way in the world is to recycle it so as to quantitatively control the entry of new products into the market. This is not only good for the environment, it can also save resources.

The picture below will help you understand PET better.

 **Tips:**

Temperature range: PET products can withstand a temperature range of -20°C to 70°C . It is only used for cold drinking cup

Transportation & Store: During the transportation or store, PET does not need to add any insulated film .

Recycle : For more convenient recycling, please sort out the garbage after using up the PET products and throw them into the designated garbage bin. **Whether PET product is environmentally friendly depends entirely on where we each throw it.**

CUSTOMIZED SERVICE

Sustainable product packaging helps to round out an eco friendly story for your brand, and demonstrates authenticity to discriminating eco-friendly customers. But finding the right high quality green packaging solution for your business can be difficult. We are here to help!

Printing

We can print customers' logo, company name, brands and so on on the cups up to six colors. Customers only provide us the printing file or Brand authorized if need, then we can send back nice cup with your information.

Mould

Any cup mould can be made in our factory. We can engrave customers' logo, company name or brand at the bottom of the cup or on the lid.

Mixing Loading

PLA and pet can be mixed in the same cabinet and enjoy the preferential price of the full container.

Biodegradable

Cups or lids can be packed in PLA bag. Not only products can be 100% biodegradable, but also the packing material can be 100% biodegradable.

HOW IT WORKS

Brief

STEP-1

Come up with your design inspiration or you can select the product from our vast catalogue, mould and design bank.

Our efficient and reliable design team develop mock ups based on your brief. Mock ups are sent to you for approval. Please note, it may take some revisions. Mock ups are developed in our in-house sampling unit.

Brief

STEP-2

Brief

STEP-3

Mock ups are ready and you need to select the best possible sustainable and Eco-friendly packaging for your brand and services. We work on quantity, pricing and delivery schedule.

Eco-friendly and sustainable packaging products are manufactured as per approved design and quantity in our manufacturing unit.

Brief

STEP-4

Brief

STEP-5

Manufactured packing products are shipped to you and food packing are ready to use. We are happy to help you.

PLA BEVERAGE CUP

All the PLA cups below can be made in PET material & Customizable

Item# PL5

Capacity	5oz/150ml
Top/Bottom	74mm/45mm
Height	69mm
Matching Lids	74mm Flat/Dome lid
G.W/ctn	11.9 lbs
Packing	50/20 1000 pcs per carton
Carton Size	39*31.5*38.5cm

Item# PL6

Capacity	6oz/180ml
Top/Bottom	74mm/45mm
Height	80mm
Matching Lids	74mm Flat/Dome lid
G.W/ctn	11.9 lbs
Packing	50/20 1000 pcs per carton
Carton Size	39*31.5*38.5cm

Item# PL7

Capacity	7oz/200ml
Top/Bottom	74mm/45mm
Height	88mm
Matching Lids	74mm Flat/Dome lid
G.W/ctn	12.8 lbs
Packing	50/20 1000 pcs per carton
Carton Size	38.5*31.5*37cm

Item# PL8

Capacity	8oz/220ml
Top/Bottom	78mm/45mm
Height	86mm
Matching Lids	78mm Flat/Dome lid
G.W/ctn	13 lbs
Packing	50/20 1000 pcs per carton
Carton Size	38*33*41cm

Item# PL9

Capacity	9oz/275ml
Top/Bottom	78mm/48mm
Height	100mm
Matching Lids	78mm Flat/Dome lid
G.W/ctn	14.3 lbs
Packing	50/20 1000 pcs per carton
Carton Size	41.5*34*40cm

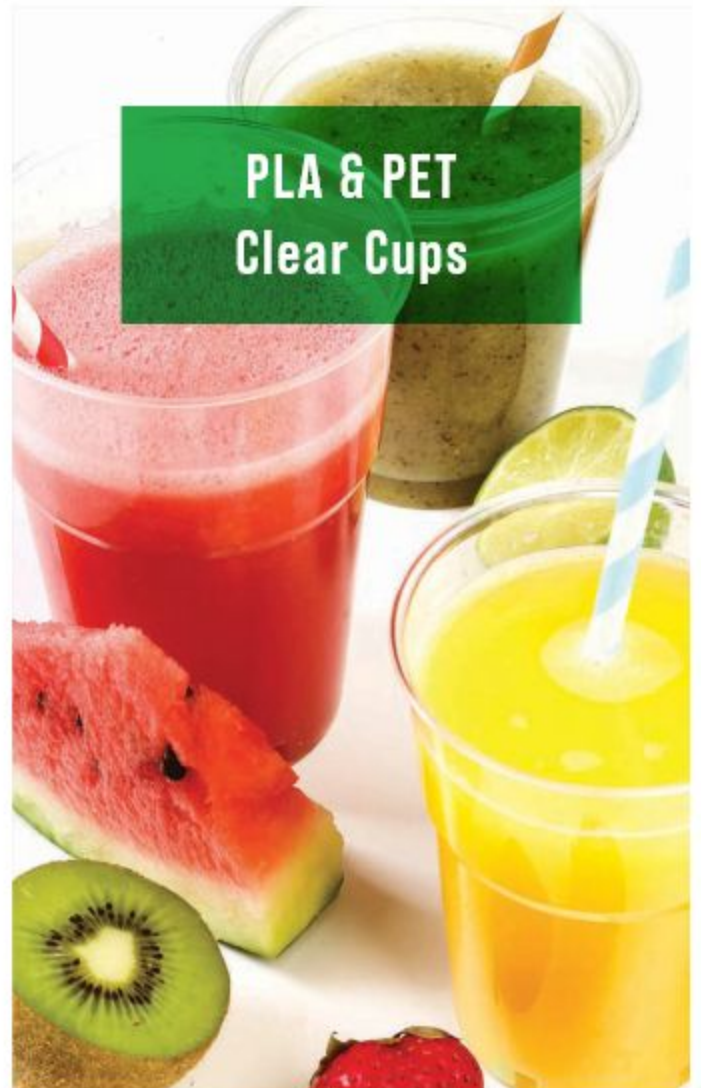

Item# PL10A

Capacity	10oz/300ml
Top/Bottom	85mm/50mm
Height	108mm
Matching Lids	85mm Flat/Dome lid
G.W/ctn	18.7 lbs
Packing	50/20 1000 pcs per carton
Carton Size	44*36*45cm

Item# PL10B

Capacity	10oz/300ml
Top/Bottom	78mm/50mm
Height	103mm
Matching Lids	78mm Flat/Dome lid
G.W/ctn	18.9 lbs
Packing	50/20 1000 pcs per carton
Carton Size	41*33.5*42cm
